

Safety Data Sheet

GHS7 Hazardous, Non-Dangerous Goods

SECTION 1 – STATEMENT OF CHEMICAL PRODUCT AND COMPANY IDENTIFICATION

Product Name:	JEL HAND CLEANER		
Synonyms:			
Product Code:	52		
SUPPLIER:	Penrite Oil Company Pty Ltd		
ADDRESS:	Australia: 110-116 Greens Road Dandenong South VIC 3175 New Zealand: 75 Lady Ruby Drive East Tamaki Auckland 2013		
TELEPHONE:	Australia: 1300 736 748; New Zealand: 0800 533 698	FAX:	Australia: 1800 736 748; New Zealand: 0800 533 698
EMERGENCY PHONE:	Australia: 1300 736 748; New Zealand: 0800 533 698	ABN:	25 005 001 525
Substance:	Water based cleaner	Product Use:	Hand cleaner
Creation Date:	October 2021	Revision Date:	October 2026
HSNO Approval Number:	HSR002552	HSNO GROUP TITLE:	Cosmetic Products Group Standard 2020.
HS CODE:	3401.19.90 30	Email:	tech@penriteoil.com (Aust and NZ)

SECTION 2 – HAZARDS IDENTIFICATION

Classification of the substance or mixture

Based on available information, this material is classified as Hazardous according to the Globally Harmonised System of Classification and labelling of Chemicals (GHS7) including Work, Health and Safety regulations, Australia.

Poisons Schedule Not scheduled.

Dangerous Goods Not classified as Dangerous Goods by the criteria of the "Australian Code for the Transport of Dangerous Goods by Road & Rail" and the "New Zealand NZS5433: Transport of Dangerous Goods on Land".

GHS Classification

- Serious Eye Irritation - Category 2
- Skin Irritation - Category 2
- Flammable Liquids - Category 4
- Acute Aquatic Toxicity - Category 3 /Chronic Aquatic Toxicity – Category 3

HSNO Classification

- 6.4A Substances that are irritating to the eye.
- 6.3A Substances that are irritating to the skin.
- 3.1D Flammable liquid - low hazard.
- 9.1C Substances that are harmful in the aquatic environment.

GHS Pictogram

GHS07

GHS Signal Word

WARNING

Hazard statement(s)

H319	Causes serious eye irritation
H315	Causes skin irritation.
H227	Combustible liquid.
H402 / H412	Harmful to aquatic life with long-lasting effects.

Safety Data Sheet

GHS7 Hazardous, Non-Dangerous Goods

Precautionary statement(s): General

- P102** Keep out of reach of children.
P103 Read label before use.

Precautionary statement(s): Prevention

- P264** Wash hands and skin thoroughly after handling.
P280 Wear protective gloves/protective clothing/eye protection/face protection/hearing protection.
P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources — No smoking.
P273 Avoid release to the environment.

Precautionary statement(s): Response

- P305 + P351 + P338** IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P337 + P313 If eye irritation persists: Get medical advice/attention.
P302+P352 IF ON SKIN: Wash with plenty of water.
P321 Specific treatment (use skin moisturiser).
P332+P313 If skin irritation occurs: Get medical advice/attention.
P362 +P364 Take off contaminated clothing and wash it before reuse.
P370+P378 In case of fire: Use carbon dioxide, alcohol-resistant foam, dry chemical or water spray to extinguish.

Precautionary statement(s): Storage

- P403 + P235** Store in a well-ventilated place. Keep cool.

Precautionary statement(s): Disposal

- P501** Dispose of contents/ container in accordance with local regulations.

Note

IMPORTANT

This SDS and the Hazard Classifications contained therein, only apply to the product in its concentrated form, as supplied.
When diluted with clean water to 1:5 or greater they no longer apply.
However, good hygiene and housekeeping practices should be adhered to.

Restrictions on use

This is a personal care or cosmetic product that is safe for consumers and other users under normal and reasonably foreseeable use. Cosmetics and consumer products, specifically defined by regulations around the world, are exempt from the requirement of an SDS for the consumer. While this material is not considered hazardous, this SDS contains valuable information critical to the safe handling and proper use of the product for industrial workplace conditions as well as unusual and unintended exposures such as large spills. This SDS should be retained and available for employees and other users of this product. For specific intended-use guidance, please refer to the information provided on the package or instruction sheet.

SECTION 3 – COMPOSITION AND INFORMATION ON INGREDIENTS

Ingredients:	CAS Number:	Proportion:
nonyl phenol ethoxylate	127087-87-0	< 10 % w/w
Naphtha (petroleum), hydrodesulfurized heavy	64742-82-1	10 - 30 % w/w
Coconut Diethanolamide	68603-42-9	< 10 % w/w
Glutaraldehyde	111-30-8	< 0.05% w/w
Ingredients determined to be non-hazardous at concentrations present.	various	Balance

Safety Data Sheet

GHS7 Hazardous, Non-Dangerous Goods

NOTE: Ingredients determined not to be hazardous are present in concentrations that do not exceed the relevant cut-off concentrations as found from NOHSC publication "List of Designated Hazardous Substances" or have been found NOT to meet the criteria of a hazardous substance as defined in the NOHSC publication "Approved Criteria for Classifying Hazardous Substances", or have been found NOT to meet the criteria of a dangerous substance as defined in the GLOBALLY HARMONIZED SYSTEM OF CLASSIFICATION AND LABELLING OF CHEMICALS (GHS).

SECTION 4 – FIRST AID MEASURES

Scheduled Poisons	Poisons Information Centre in each Australian State capital city or in Christchurch, New Zealand can provide additional assistance for scheduled poisons. (Phone Australia 131126 or New Zealand 0800 764 766).
First Aid Facilities Required	Ensure there is access to eye washes and safety showers.
Inhalation	Remove victim to fresh air away from exposure. Obtain medical attention if symptoms occur.
Skin contact	Cosmetic hand soap - no adverse effects expected. If any symptoms occur, wipe off affected area and wash with water. Seek medical advice (e.g. doctor) if irritation, burning or redness develops.
Eye contact	If in eyes, hold eyelids apart and flush the eyes continuously with running water. Remove contact lenses. Continue flushing until advised to stop by the Poisons Information Centre or a doctor, or for at least 15 minutes. If symptoms persist, seek medical attention.
Ingestion	Do NOT induce vomiting. Do NOT attempt to give anything by mouth to an unconscious person. Rinse mouth thoroughly with water immediately. Give water to drink. If vomiting occurs, give further water to achieve effective dilution. Seek urgent medical advice (e.g. doctor).
Advice to Doctor	Treat symptomatically. All treatments should be based on observed signs and symptoms of distress of the patient. Poisons Information Centre in each Australian State capital city or in Christchurch, New Zealand can provide additional assistance for scheduled poisons.

SECTION 5 – FIRE FIGHTING MEASURES

Fire and Explosion Hazards	This product is not flammable under conditions of use, however evaporation of water from the mixture caused by the heat of nearby fire may produce floating layers of combustible substances. C1 Combustible.
Extinguishing Media	Use carbon dioxide, alcohol-resistant foam, dry chemical or water spray. Spray down fumes resulting from fire.
Fire Fighting	Keep containers exposed to extreme heat cool with water spray. Fire fighters to wear self-contained breathing apparatus if risk of exposure to products of combustion or decomposition.
Flash Point	>63 °C

SECTION 6 – ACCIDENTAL RELEASE MEASURES

Emergency Procedures	Shut off engine and electrical equipment and leave off. Extinguish and/or remove all sources of ignition. Move people from immediate area; keep upwind. Wear appropriate personal protective equipment and clothing to prevent exposure. Stop leak if safe to do so. Take precautions against static discharge. Ensure all equipment is grounded and use non-sparking tools during clean-up operations. Send messenger to notify fire brigade and police. Tell them location, material quantity, emergency contact. Indicate condition of vehicle and damage or injuries observed. Warn other traffic.
-----------------------------	---

Safety Data Sheet

GHS7 Hazardous, Non-Dangerous Goods

Occupational Release

Minor spills do not normally need any special clean-up measures. Rinse with water. In the event of a major spill, prevent spillage from entering drains or water courses. Wear appropriate protective equipment as in section 8 below to prevent skin and eye contamination. Spilt material may result in a slip hazard and should be absorbed into dry, inert material (e.g. sand, earth or vermiculite), which then can be put into appropriately labelled drums for disposal by an approved agent according to local conditions. Residual deposits will remain slippery. Wash area down with excess water. If contamination of sewers or waterways has occurred advise the local emergency services. In the event of a large spillage notify the local environment protection authority or emergency services.

SECTION 7 – HANDLING AND STORAGE

Handling Wear eye protection when risk of exposure occurs. Avoid contact with incompatible materials. When handling, DO NOT eat, drink or smoke. Keep containers closed at all times. Avoid physical damage to containers.

Storage Store in a cool, dry, place with good ventilation. Keep containers closed at all times – check regularly for leaks.

SECTION 8 – EXPOSURE CONTROLS AND PERSONAL PROTECTION

Control parameters

Occupational Exposure Limits

National Occupational Exposure Limits, as published by National Occupational Health & Safety Commission:

Time-weighted Average (TWA): None established for product.

For ingredients:

- **In the absence of data from National Occupational Health & Safety Commission (NOHSC) Worksafe Australia use - Mineral Spirits 150-200 HSPA: 350mg/m³ TWA (8hr)**
- **Glutaraldehyde: 0.1 ppm Peak limitation, 0.41mg/m³ Peak limitation**

Short Term Exposure Limit (STEL): None established for product.

Control parameters

Biological Limits

No biological limits allocated.

PERSONAL PROTECTION PPE

Ventilation

Use only in a well-ventilated area. Ensure ventilation is adequate to maintain air concentrations below exposure standards.

Personal Protective Equipment

Use good occupational work practice.

The use of protective clothing and equipment depends upon the degree and nature of exposure. Final choice of appropriate protection will vary according to individual circumstances i.e. methods of handling or engineering controls and according to risk assessments undertaken.

The following protective equipment should be available;

Eye Protection

Hand soap – not required for typical applications as per label directions.

The use of safety glasses with side shield protection, goggles or face shield is recommended to handle in quantity, cleaning up spills, decanting, etc. Contact lenses pose a special hazard; soft lenses may absorb irritants and all lenses concentrate them.

Safety Data Sheet

GHS7 Hazardous, Non-Dangerous Goods

Skin Protection

Hand soap – not required for typical applications as per label directions.

Gloves, overalls, apron, work boots and elbow length gloves are recommended for handling the concentrated product (as per AS/NZS 2161, or as recommended by supplier) to handle in quantity, cleaning up spills, decanting, etc.

Protective Material Types

Material suitable for detergent contact – Butyl rubber, Natural Latex, Neoprene, PVC, and Nitrile.

Respirator

Hand soap – not required for typical applications as per label directions with adequate ventilation.

If engineering controls are not effective in controlling airborne exposure then an approved respirator with a replaceable dust/particulate filter should be used. Refer to relevant regulations for further information concerning respiratory protective requirements. Reference should be made to Australian Standards AS/NZS 1715, Selection, Use and Maintenance of Respiratory Protective Devices; and AS/NZS 1716, Respiratory Protective Devices, in order to make any necessary changes for individual circumstances.

SECTION 9 – PHYSICAL AND CHEMICAL PROPERTIES

Physical State	Liquid gel	Colour	Opaque Pink
Odour	Characteristic citrus	Specific Gravity	0.95 @ 25 °C
Boiling Point	Not available	Freezing Point	Not available
Vapour Pressure	Not available	Vapour Density	Not available
Flash Point	>63 °C	Flammable Limits	None
Water Solubility	Miscible in all proportions	pH	8.0 – 8.8 (neat)
Volatile Organic Compounds (VOC)	<35 % v/v	Coefficient of Water/Oil	
Viscosity	Not available	Distribution	Not available
Evaporation Rate	Not available	Odour Threshold	Not available
		Per Cent Volatile	Not available

SECTION 10 – STABILITY AND REACTIVITY

Reactivity	Stable at normal temperatures and pressure.
Chemical stability	Stable under normal ambient and anticipated storage and handling conditions of temperature and pressure.
Conditions to avoid	Avoid contact with heat or heat sources. Avoid ignition sources including heat and sparks.
Incompatible materials	Oxidising agents.
Hazardous decomposition products	Hazardous decomposition products are not expected to form during normal storage requirements. Product can decompose on combustion (burning) to form Carbon Monoxide, Carbon Dioxide, and other possibly toxic gases and vapours.
Hazardous Reactions	None known.

SECTION 11 – TOXICOLOGICAL INFORMATION

POTENTIAL HEALTH EFFECTS

No adverse health effects expected if the product is handled in accordance with this Safety Data Sheet and the product label. Symptoms or effects that may arise if the product is mishandled and overexposure occurs are:

Inhaled	Inhalation over exposure may result in mucous membrane irritation of the respiratory tract and coughing.
Ingestion	Based upon the Acute Toxicity Estimate data (ATE calculated), the product is expected to have a low order of oral toxicity associated with it when ingested. Ingestion may result in irritation to the mouth and throat, nausea, vomiting.

Safety Data Sheet

GHS7 Hazardous, Non-Dangerous Goods

Skin Contact	Though the product is a hand cleaner, containing skin conditioners - it may have a degreasing effect on the skin. Prolonged or repeated contact may cause defatting of the skin which may lead to dermatitis.
Eye	Concentrated product causes eye irritation. Eye contact with concentrate will cause stinging, blurring, tearing.
Chronic exposure	People previously sensitised to Glutaraldehyde should avoid using this product.
Toxicology Information	Not toxic, based on ingredients. Oral LD50 (ATE calculated): >10,000 mg/kg
Carcinogen Status	
NOHSC	No significant ingredient is classified as carcinogenic by NOHSC.
NTP	No significant ingredient is classified as carcinogenic by NTP.
IARC	N,N-Bis(2-hydroxyethyl) coconut oil amide has been classified by the International Agency for Research on Cancer (IARC) as a Group 2B carcinogen. Group 2B - The agent is possibly carcinogenic to humans.
Respiratory sensitisation	Not expected to be a respiratory sensitizer.
Skin Sensitisation	Not expected to be a skin sensitizer.
Germ cell mutagenicity	Not considered to be a mutagenic hazard.
Reproductive Toxicity	Not considered to be toxic to reproduction.
STOT-single exposure	Not expected to cause toxicity to a specific target organ.
STOT-repeated exposure	Not expected to cause toxicity to a specific target organ.
Aspiration Hazard	Not expected to be an aspiration hazard.

SECTION 12 – ECOLOGICAL INFORMATION

Acute Aquatic Toxicity

Product (as sold)

Acute Aquatic Toxicity - Category 3
H402 - Harmful to aquatic life. (LC50 >10 mg/L but < 100mg/L)
9.1C - Substances that are harmful in the aquatic environment.
Acute Aquatic Toxicity (ATE Calculated) LC50 fish: 20 - 70 mg/L.

Product (at use dilution)

Acute Aquatic Toxicity - NOT HAZARDOUS
Not harmful to aquatic life. LC50 > 100mg/L.
Acute Aquatic Toxicity (ATE Calculated) LC50: 2000 - 7000 mg/L.

Chronic Aquatic Toxicity

Persistence and degradability

Chronic Aquatic Toxicity – Category 3. H402 / H412 - Harmful to aquatic life with long-lasting effects. Hydrocarbon solvents would be expected to evaporate largely to the atmosphere. Hydrocarbon solvents are expected to be moderately toxic to aquatic organisms. Nonyl phenol ethoxylates are classified as 'not readily biodegradable'. Most of the other organic components of this product are readily biodegradable.

Bio accumulative potential

No bioaccumulation is expected.

Mobility in soil

Due to its physico-chemical characteristics, highly mobile in the environment and will partition to the aquatic compartment.

Other adverse effects

Not available

Environmental Protection

Do not discharge this material into waterways.

SECTION 13 – DISPOSAL CONSIDERATIONS

Product and Packaging

Dispose of contents/container to chemical landfill. Consult local or regional waste management authority for further details.

Disposal

Safety Data Sheet

GHS7 Hazardous, Non-Dangerous Goods

SECTION 14 – TRANSPORT INFORMATION

IMDG Marine Pollutant:	No
HAZCHEM:	None allocated.
Land Transport (ADG):	Not classified as Dangerous Goods by the criteria of the "Australian Code for the Transport of Dangerous Goods by Road & Rail" and the "New Zealand NZS5433: Transport of Dangerous Goods on Land".
MARINE TRANSPORT:	Not classified as Dangerous Goods by the criteria of the International Maritime Dangerous Goods Code (IMDG Code) for transport by sea.
AIR TRANSPORT:	Not classified as Dangerous Goods by the criteria of the International Air Transport Association (IATA) Dangerous Goods Regulations for transport by air.

SECTION 15 – REGULATORY INFORMATION

Montreal Protocol (Ozone depleting substances).	Not applicable.
The Stockholm Convention (Persistent Organic Pollutants).	Not applicable.
The Rotterdam Convention (Prior Informed Consent).	Applicable – nonyl phenol ethoxylates. (CRC-15/3: Nonylphenols and nonylphenol ethoxylates.)
Basel Convention (Hazardous Waste).	Not applicable.
INTERNATIONAL CONVENTION FOR THE PREVENTION OF POLLUTION FROM SHIPS (MARPOL):	Not applicable.
Poison Schedules:	Not scheduled.
AICS	All components of this product are listed on or exempt from the Australian Inventory of Chemical Substances (AICS).
NZIoC (New Zealand Inventory of Chemicals):	All components of this product are listed on or exempt from the New Zealand Inventory of Chemical (NZIoC).
HSNO Approval Number:	Cosmetic Products Group Standard 2020 - HSR002552

SECTION 16 – OTHER INFORMATION

Issue Date:	3 rd October 2021
Version Number:	V 2.0 First Issue – GHS7 Classification
Prepared by:	This Safety Data Sheet has been prepared by Tuwai Specialties on behalf of its client. tuwai.wt@bigpond.com
Abbreviations and acronyms	ADG Code: Australian Code for the Transport of Dangerous Goods by Road and Rail. AICS: Australian Inventory of Chemical Substances. Disclaimer

This MSDS summarizes at the date of issue our best knowledge of the health and safety hazard information of this product, and in particular how to safely handle and use this product in the workplace. Since the supplier cannot anticipate or control the conditions under which the product may be used, each user must, prior to usage, review this MSDS in the context of how the user intends to handle and use the product in the workplace. If clarification or further information is needed to ensure that an appropriate assessment can be made, the user should contact this supplier.
