

Washroom & Shower Dispensers

PRODUCT DESCRIPTION

Unique range of 1 and 2 litre sealed cartridge dispensers, that meet the distinct needs of any washroom or shower environment.

USAGE

For exclusive use with SC Johnson Professional Cleanse Washroom foam soaps and shower products.

METHOD OF USE

Large, 'easy-push' buttons dispense a controlled dose of product appropriate for the application required. Empty cartridges are easily replaced in seconds.

FEATURES		BENEFITS
Guaranteed for life		All SC Johnson Professional dispensers are manufactured from durable plastic components and rigorously tested for high usage environments, providing assurance of quality and longevity.
BioCote® protected button		BioCote® antimicrobial protection technology is incorporated at the time of manufacture into the plastic buttons of all SC Johnson Professional manually operated, wall-mounted skin care dispensers. The button is the primary contact point for people using these dispensers and BioCote® technology provides life-long antimicrobial protection to inhibit the growth of a broad spectrum of bacteria and moulds that could potentially cause illness.
Large push buttons		Minimise the operation force required to allow easy use by hand or elbow; suitable in hygiene sensitive areas.
Fixed product dose		Delivers the exact amount required, controlling usage and reducing waste.
Unique locking mechanism		Helps prevent unauthorised access, pilferage and product contamination.
Sight Glass		Provides visibility of the level of product in the cartridge which helps identify when product needs replacing.
Simple cartridge replacement		Designed for exclusive use with SC Johnson Professional skin care system products to enable cartridges to be replaced in seconds, reducing maintenance time and costs.
Hygienic, airless cartridges		The ultrasonically sealed cartridge and pump mechanisms prevent the ingress of air into the cartridge during use to help prevent product contamination and ensure 'fresh' product is dispensed every time.
Minimal waste		The air-tight cartridges are designed to collapse to minimise product waste.
Quick-View™ dispensers		The dispenser has transparent sides to allow accurate soap visibility from any angle or distance to establish if a cartridge change is required without having to open-up the dispenser – saves on time and cuts maintenance costs.

* BioCote® is a registered trademark of Biocote Limited ** Efficacy is independently validated by ISO methods
