

Liquid Pyroneg

L99z

Specialist ultrasonic and spray wash detergent

Description

Liquid Pyroneg is specially formulated for the superior cleaning of medical instruments in ultrasonic and washer disinfectors and for manual cleaning.

Features

Liquid Pyroneg is a mildly alkaline detergent containing a blend of wetting agents and sequestrants and is formulated specifically for cleaning of medical instruments in theatre and sterile service departments. The product is ideal for the pre-soaking of surgical instruments to remove gross soiling in theatre prior to transfer to sterile services and provides superior results in ultrasonic washers and washer disinfectors.

Benefits

- Suitable for use in all water conditions.
- Ensures rapid and complete removal of soils.
- Concentrated for greater economy in use.
- Ease of handling in convenient small pack.
- Accurate manual dosing with portion controlled dosing cap.
- Complies with recommendations of AS/NZS 4187:2014 as a suitable instrument wash detergent.
- Registered as a TGA Medical Device Included - Class 1, ARTG 128941.

Application areas

- Healthcare
- Education
- Government

Liquid Pyroneg

L99z

Specialist ultrasonic and spray wash detergent

Directions for use

Manual or Ultrasonic Washing:

1. Rinse items with cold water.
2. Prepare wash solution of Liquid Pyroneg using standard dosing cap supplied at 1-2 doses (20-40ml)/10L warm water (45-50°C).
3. Soak or brush items.
4. Rinse with fresh water.
5. Items such as laboratory glassware and syringes should then be rinsed with distilled or deionised water.
6. Allow to dry.

Washer/Disinfecter

Liquid Pyroneg is normally applied using Diversey dosing equipment or integral dosing pumps where fitted at a concentration of 2-4ml/L. Food surfaces must be thoroughly rinsed with potable water before production starts.

Technical data

Appearance	Clear purple liquid	pH (neat)	11.5
		Specific gravity	1.04

The above data is typical of normal production and should not be taken as a specification.
