

# Pegaso SVD

## STEAM, VACUUM & DETERGENT

- » 9 bar steam pressure
- » In-line detergent Injection
- » Continuous steam
- » 15L HEPA vacuum filtration
- » Robust stainless steel construction

### Optional Professional Steam & Detergent Kit

- » Lightweight steam & detergent hose
- » In-line detergent injection
- » Continuous steam
- » 10 piece professional detail kit

## A high quality stainless steel commercial steam cleaner

The Pegaso is a powerful industrial grade steam cleaner with integrated vacuum function and detergent injection for hard to remove dirt, grime and stains. This unit boasts a huge 9 Bar steam pressure, producing quality dry saturated steam, maintaining a high working pressure to keep up with difficult cleaning jobs and achieving hospital approved sanitation levels.

The Pegaso features a HEPA H13 vacuum filtration system, retaining over 99.9999% of even the smallest of particles. It incorporates large water and detergent tank capacities allowing for extended cleaning times for larger cleaning jobs.

The Pegaso uses high temperature dry saturated steam produced at over 175 degrees. With a moisture content of only 5%, this dry saturated steam kills >99.999% of bacteria & viral agents.\* This allows to deep clean below the surface and effectively lift built up dirt and grime, whilst sanitising surfaces.

The Pegaso is designed to clean a huge variety of everyday surfaces including floors, walls, windows, upholstery, mattresses, commercial kitchens, food manufacturing conveyors, gaming rooms, machinery, engine bays, car upholstery and more.

## Ideal for commercial and industrial uses

The Pegaso is the perfect cleaning machine for a wide range of commercial and small industrial uses including commercial kitchens, restaurants, hospitals, hotels, contract cleaners, food manufacturing and factories, auto-detailing, supermarkets and more.

## Built to last

With quality Italian construction, the Pegaso steam cleaner is a robust and reliable industrial unit with the power and features to tackle the toughest cleaning tasks in a portable and compact stainless steel frame.

Our available accessories are constructed with a makeup of 50% Fibreglass Reinforced Polymer (FRP). FRP is often used in aerospace, marine & construction industries, ensuring high durability in an industrial setting.

## A tool for every cleaning job

The Pegaso is supplied with a comprehensive Steam & Vacuum kit including a range of attachments to cover a huge variety of cleaning applications. We have a Professional Steam & Detergent detail kit upgrade available, including full steam only kit, as well as an array of optional extras available.
